

Amendments to the Specification:

Please replace the paragraph at page line, lines 14-17, with the following rewritten paragraph:

Brotspies et al. U.S. Patent No. 6,386,397 discloses a spray bottle grip used with a nasal spray bottle. The grip is coupled to a reciprocating nozzle of the spray bottle, and two arms extend downwardly along the spray bottle. The arms include finger flanges that provide an ergonomic means of reciprocating the nozzle to dispense product from the spray bottle.
